

PRODUCT DATA SHEET

JE Pistons Introduces IMCA USRA 2-Barrel Lightweight Flat Top

JE adds one more exciting part number to our vast circle track arsenal with this ultra-lightweight IMCA/USRA 2-barrel pistons. These pistons focus on low weight, friction, and offer a wide range of supported bore sizes. These pistons were designed for the budget circle track racer who wants to maximize performance per dollar.

FEATURES

- **Extremely lightweight (383g) for maximized off-the-corner acceleration**
- **Bore sizes range from 4.030 to 4.065in in .005in increments**
- **Strut lightening holes help remove mass and improve windage**
- **Designed for .043in gas nitrided top, .043in Napier second, and 3mm oil ring reduces drag**
